Career guidance cell, training and placement cell & entrepreneurship cell & no. of programs organized & it's out come in last 3-years:

Srinix College of Engineering takes necessary initiatives for the career guidance of its student through the skill development cell of the Institute at various levels.

Srinix College of Engineering provides career guidance for appearing competitive examinations and career counseling through internal and external experts.

Academic counseling through mentors

Aptitude test through professionals

Career guidance through experts

The college regularly conducts Personality Development Programme which enhances the IQ level and communication skills of the participants. The college also invites Guest speakers from the industry and reputed institutes, which provides regional and global employment opportunities for the Students.

The total number of students benefitted by such guidance for last three years is given below:

YEAR	2023	2024	2025
NUMBER	60	76	106

The college provides training in Reasoning, Aptitude, English and general knowledge through expert trainers and one MoU has been signed with the Mahendra educational private Limited for this purpose. This training helps a lot to the students to get success in competitive examinations. Every year students get job in Banking sector, Railway apart from the normal technical jobs.

- Spoken English training is given in every class individually right from the first semester.
- The college has a well-equipped Language Laboratory with state-of-the-art language teaching/learning technology. Special sections are available in the Language Lecture to teach the basics of English to the students from rural backgrounds & helping them to build their confidence.
- The Pre-Placement Training Cell conducts various events such as Role-play, debate, paper presentation, Group Discussion, Mock Interview etc., enhancing communication skills.
- Various programmes and events aimed at skill development are conducted throughout the duration of the course.
- Basic course on computer literacy and skills is mandatory in the curriculum for all the branches of B.Tech. Programmes.
- ICT enabled learning strategies are employed in all the courses of all the branches.
- Students are motivated to take up globally recognized certification programmes such as Microsoft, HP, Core JAVA, Python etc.
- Along with the provisions in the curriculum, special initiatives are taken through pertinent professional societies and clubs to make students computer literate.
- Group discussion, mock interviews, training on interview skills, brainstorming sessions, etc are conducted on a regular basis.

- Every program gives one technical skill as value addition to its students. For example, the students of Electrical Engineering have been provided with training on Robotics, Electric vehicle, solar energy etc.
- **SOFT SKILLS**

Soft Skills training gives a comprehensive understanding of the true perspective of application of skills as expected at the present work scenario. Therefore, examples, case studies, and exercises are tailor-made to suit the needs of students of Srinix college have been provided.

Objectives:

- Developing of accuracy – this training aims at facilitating and teaching Soft Skills.
- Provide realistic examples to students. In addition to this, dialogues used in everyday life, exchanges and responses using case studies as examples are given to make a better living at industry and world.
- Allow students to place new information and skill development into a larger context.

Lectures, seminars, symposia and paper presentations etc., are organized by the students under the guidance of faculty members and HoD with the primary focus on development of the technical and soft skills.

LANGUAGE AND COMMUNICATION SKILLS

Srinix offered learning opportunities for the students to get trained on English and communication skills. These students are trained in different sessions with a final assessment. The teaching methodology has been designed way to include all level of learners. Phonetics was also exclusively taken care of. Theory, group and individual activity and games were some of the methods used in teaching. Reflection process was done at the end of every session. Intermediate feedback was also taken to modify the structure if needed. The students from different departments were part of this programme and study materials are given to all students. Role play activities strengthened their skills and gave them confidence in their language skills in real life situations. Group activity gave scope for students to receive feedback from fellow students and trainer to make the needed changes.

The Pre-Placement Training Cell conducts various events such as Role-play, debate, paper presentation, Group Discussion, Mock Interview etc., enhancing communication skills.
