About the Institution

Srinix college of Engineering, Balasore is established in 2009 by the Balasore Technical Education Society with the approval of AICTE, New Delhi and affiliated to Biju Patnaik University of Technology, Orissa to create technical manpower and enhance the standard of technical education in Orissa. Presently the institute is offering four undergraduate engineering courses in Electrical, Mechanical, Civil and Computer Science & Engineering. The college not only imparts technical education but looks into the moral discipline of the students. The institution has all facilities to develop the student technically so that they would be able to compete in the global economy and find a better position

Department of Electrical Engineering

The department of Electrical Engineering has been functioning as a fully fledged department since inception of the institute catering primarily to the education of undergraduate and research scholars

About Seminar

Two days National Seminar on “Recent Developments on Power System Engineering (RDPS-2022)” to be organized by the Department of Electrical Engineering, SCE, Balasore is intended to assist the students, researchers and professionals mainly from academic institutions power engineers and field engineers to share their knowledge and to develop mutual training and research activities.

Objective of Seminar

- To identify the latest trend and technologies in power system engineering and to identify and overcome the challenges in solutions in electrical fields
